GENERAL PERSONNEL – Public Complaints About Personnel

The Regional Superintendent shall establish guidelines whereby all persons having complaints concerning the Regional Office of Education employees receive prompt and careful attention and ROE employees and administrators are protected from having to deal with frivolous, vexatious, or needlessly repetitive complaints.

It is the ROE's intention that charges against its employees will be dealt with directly by the persons involved at the level closest to the complaint.

When applicable, all complaints shall be handled according to those procedures outlined in the procedures consistent with administrative guidelines.

If the Regional Superintendent is the subject of the complaint, it should be directed to the Assistant Regional Superintendent.

All complaints must be filed within 180 days of occurrence of the problem or issue.
