STUDENT WELFARE – Special Education - Screening

The Regional Office of Education is committed to the identification of all exceptional students enrolled in their program(s). To affirm this commitment and to remain in compliance with the Illinois State Board of Education’s policy on screening as outlined in the Department of Special Education’s Bulletin number seventeen (17), the ROE requires the following screening:

1. Any student over the age of sixteen (16) or parent/guardian requesting a screening or full case study evaluation must do so through the student’s home school district.
2. The Director of Alternative Education may also refer a student for a full case study evaluation, and the home school district must accept the referral made by the Director.

LEG. REF.: PR 9.02, IAC 226.510, CFR 300.220, 300, 451.
