

ROE – COMMUNITY RELATIONS

RELATIONS WITH EDUCATIONAL RESEARCH AND SERVICES

Individuals who wish to do research in the Regional Office of Education or with its programs shall complete an application noting the purpose of the research, relationship of research to education in general, and what significance it would have to the ROE. The ROE is to receive a copy of all proposed instruments the researcher proposes to use.

Research projects conducted by university students and personnel shall be coordinated through the appropriate campus office, which shall send applications to the Regional Superintendent or his/her designee. Inquiry shall be made of administrators and teachers as to the feasibility of the project being conducted in the ROE. The request shall be subject to final approval by the Regional Superintendent or his/her designee.
